

VACANCES D'HIVER ÉPIQUES - 5

winter break is almost here! with 2 whole weeks off from school and endless activities ready to be tackled, how are you going to spend your winter break? I shared with the class the activities I have done over my winter break through the years, now it is your turn to share with the class!

If you could do anything over the winter break, what would you do? Keep in my mind that these plans must keep you in Ontario and have to be realistic (i.e., you are not going to be flying to the moon this break). Your winter break plans must include the following criteria:

- At least 2 different winter activities and 1 indoor activity
- Each activity must be accompanied by 2-3 sentences, explaining why you want to include this activity during your winter break
- 1 activity you do not want to do and 2 sentences explaining why not
- A poster to use during your presentation
- Your poster must include
 - A title
 - Activity titles
 - Images (real or drawn) that support your plans
 - Image descriptions

You will be responsible for presenting your winter plans and poster to the class on December 17th-18th. We will draw names for which day you will be responsible for presenting.

Please remember to look over the project checklist (found on the back of this paper) and the project rubric to ensure that you have completed all portions of the project. Don't forget that you have a great resource in your French duotang that can help you with this project!
